The idea

A vocabulary-in-context question is answered by the sentence, not by a memorized gloss. The sentence almost always plants a clue — a defining phrase, an example, a contrast, or a consequence — that pins down which meaning the writer intends.

What clue in the sentence fixes the intended meaning of the word, and what plain paraphrase does that clue predict?

Predict a paraphrase from the clue before reading the options. Then match, discarding opposites, wrong-nuance near-synonyms, wrong dictionary senses, and sound-alikes.

Watch every step

'You should have called,' she chided gently, more worried than truly angry.

As used in the sentence, 'chide' most nearly means

- **A.** to scold mildly
- **B.** to congratulate ✗ *opposite-meaning*
- **C.** to rage at ✗ *near-synonym-wrong-nuance*
- **D.** to shrink back timidly ✗ *wrong-dictionary-sense*
- **E.** to hide oneself away ✗ *sound-alike-or-association*

Why **A** — "to scold mildly." Choose the option closest to your predicted paraphrase.

Now a harder one

Editorials fulminate against the new tax, issuing furious blasts of condemnation week after week.

As used in the sentence, 'fulminate' most nearly means

A. to endorse warmly ✗ *opposite-meaning*

B. to denounce vehemently

C. to complain quietly ✗ *near-synonym-wrong-nuance*

D. to explode or detonate ✗ *wrong-dictionary-sense*

E. to reach a high point ✗ *sound-alike-or-association*

Why **B** — "to denounce vehemently." Choose the option closest to your predicted paraphrase.

The method, in one line

Vocabulary in context: criticism, censure & rebuke

Predict a paraphrase from the clue before reading the options. Then match, discarding opposites, wrong-nuance near-synonyms, wrong dictionary senses, and sound-alikes.

Could my choice replace the word and preserve the sentence's logic? Have I resisted the opposite, the almost-right synonym, and the alternate sense the context rules out?

Watch out: two traps to dodge

⚠ opposite-meaning
Selects a meaning roughly opposite to the one the clue requires.

⚠ near-synonym-wrong-nuance
Selects a meaning in the right general family but with the wrong precise nuance for this sentence.

Name the trap before you pick — most wrong answers are one of these two.
