The idea

A vocabulary-in-context question is answered by the sentence, not by a memorized gloss. The sentence almost always plants a clue — a defining phrase, an example, a contrast, or a consequence — that pins down which meaning the writer intends.

What clue in the sentence fixes the intended meaning of the word, and what plain paraphrase does that clue predict?

Predict a paraphrase from the clue before reading the options. Then match, discarding opposites, wrong-nuance near-synonyms, wrong dictionary senses, and sound-alikes.

Watch every step

'Denied.' The terse reply used a single word where a paragraph had been expected.

As used in the sentence, 'terse' most nearly means

A. wordy and expansive ✗ *opposite-meaning*

B. curtly brief

C. polite and diplomatic ✗ *near-synonym-wrong-nuance*

D. neatly polished and refined ✗ *wrong-dictionary-sense*

E. nervously strained ✗ *sound-alike-or-association*

Why **B** — "curtly brief." Choose the option closest to your predicted paraphrase.

Now a harder one

His curt 'Fine.' made plain, in a single clipped syllable, that the conversation was over and he was displeased.

As used in the sentence, 'curt' most nearly means

A. warmly expansive ✗ *opposite-meaning*

B. simply concise ✗ *near-synonym-wrong-nuance*

C. abruptly halted midway ✗ *wrong-dictionary-sense*

✓ **D.** rudely brief

E. to woo or seek someone's favor ✗ *sound-alike-or-association*

Why D — "rudely brief." Choose the option closest to your predicted paraphrase.

The method, in one line

Vocabulary in context: brevity vs. verbosity

Predict a paraphrase from the clue before reading the options. Then match, discarding opposites, wrong-nuance near-synonyms, wrong dictionary senses, and sound-alikes.

Could my choice replace the word and preserve the sentence's logic? Have I resisted the opposite, the almost-right synonym, and the alternate sense the context rules out?

Watch out: two traps to dodge

opposite-meaning
Selects a meaning roughly opposite to the one the clue requires.

near-synonym-wrong-nuance
Selects a meaning in the right general family but with the wrong precise nuance for this sentence.

Name the trap before you pick — most wrong answers are one of these two.

Try it, then watch the walk-through
