Words in context: high-frequency vocabulary, set 10

This node drills high-frequency SAT vocabulary using the words-in-context method...

Lesson `rw.vocab.V10`

The idea

This node drills high-frequency SAT vocabulary using the words-in-context method: read the meaning the sentence builds, predict the intended word, then choose the option that matches it exactly. Wrong choices are imprecise, use a different sense, carry the wrong connotation, or contradict the context.

What precise meaning does the sentence build for the blank? Look for a contrast, a restatement, an example, or a tone.

Predict a word from context BEFORE reading the options, then test each for precise meaning, correct sense, matching connotation, and consistency.

Watch every step

Critics dismissed the viral dance trend as ___, certain that within a week no one would remember it had ever existed.

Which choice completes the text with the most logical and precise word?

A. obscure ✗ *imprecise/loosely-related word*

B. notorious ✗ *wrong-connotation word*

C. enduring ✗ *contradicts-context word*

D. ephemeral

Why **D** — "ephemeral." Choose the option that matches the prediction most exactly.

Now a harder one

The old engine ran fine for a mile, then sputtered, then roared back to life without warning—mechanics called its performance ___.

Which choice completes the text with the most logical and precise word?

- **A.** erratic
- **B.** weak ✕ *imprecise/loosely-related word*
- **C.** spirited ✕ *wrong-connotation word*
- **D.** consistent ✕ *contradicts-context word*

Why **A** — "erratic." Choose the option that matches the prediction most exactly.

The method, in one line

Words in context: high-frequency vocabulary, set 10

Predict a word from context BEFORE reading the options, then test each for precise meaning, correct sense, matching connotation, and consistency.

Is it precise, not just close? Right sense? Right connotation? Consistent with the context?

Watch out: two traps to dodge

⚠ imprecise/loosely-related word

Selects a word in the right general area but not the precise meaning the sentence builds.

⚠ wrong-sense word

Selects a word whose alternate sense does not match the meaning the context requires.

Name the trap before you pick — most wrong answers are one of these two.

Try it, then watch the walk-through
