Words in context: high-frequency vocabulary, set 14

This node drills high-frequency SAT vocabulary using the words-in-context method…

Lesson `rw.vocab.V14`

The idea

This node drills high-frequency SAT vocabulary using the words-in-context method: read the meaning the sentence builds, predict the intended word, then choose the option that matches it exactly. Wrong choices are imprecise, use a different sense, carry the wrong connotation, or contradict the context.

What precise meaning does the sentence build for the blank? Look for a contrast, a restatement, an example, or a tone.

Predict a word from context BEFORE reading the options, then test each for precise meaning, correct sense, matching connotation, and consistency.

Watch every step

He could ___ almost any horror film, no matter how gruesome, without flinching once.

Which choice completes the text with the most logical and precise word?

- **A.** stomach
- **B.** crave ✗ *wrong-connotation word*
- **C.** avoid ✗ *contradicts-context word*
- **D.** digest ✗ *wrong-sense word*

Why **A** — "stomach." Choose the option that matches the prediction most exactly.

Now a harder one

No one at the party had any idea what surprises were ___ for them once the lights came back on.

Which choice completes the text with the most logical and precise word?

A. forgotten ✗ *contradicts-context word*

B. in store

C. overdue ✗ *wrong-sense word*

D. rumored ✗ *imprecise/loosely-related word*

Why **B** — "in store." Choose the option that matches the prediction most exactly.

The method, in one line

Words in context: high-frequency vocabulary, set 14

Predict a word from context BEFORE reading the options, then test each for precise meaning, correct sense, matching connotation, and consistency.

Is it precise, not just close? Right sense? Right connotation? Consistent with the context?

Watch out: two traps to dodge

⚠ imprecise/loosely-related word

Selects a word in the right general area but not the precise meaning the sentence builds.

⚠ wrong-sense word

Selects a word whose alternate sense does not match the meaning the context requires.

Name the trap before you pick — most wrong answers are one of these two.

Try it, then watch the walk-through
